

# DROP DIN KABELTV PAKKE

Mange taler om at droppe deres kabelpakke. Det der afholder de fleste er to ting: Manglende alternative muligheder for se deres film og serier og så er en kabelpakke tit forbundet med internet også: Kabelmodem baseret internet.

Det sidste er der ikke en nem løsning på udover at man tjekker hvad der alternativt kan leveres af fiber eller ADSL.

Det første derimod er nemt at løse. Der er en mængde streaming tjenester hvoraf flere endda er gratis.

Alt det kræver er en browser på enten en computer, en tablet eller en smartphone og så en Google Chromecast enhed på ens tv.

Så kan man via Chrome browseren streame ca alt.

Enkelte af tjenesterne har endda egen app der gør det meget nemmere.

Idet fl.g. lister vi nogle muligheder. De kan så suppleres med et TV2 PLayer streaming abonnement og man er fint kørende.

Man skal være opmærksom på at gråzone udbydere tit har hjemmesider med alt muligt skrammel på (malware, tracking cookies og det der er værre....desuden er der ingen tvivl om at ophavsretten brydes så man kan blive mødt af sagsanlæg fra udlandet. Så kan ikke umiddelbart anbefale dem!)
